

Awite Bioenergie GmbH
Grünseiboldsdorfer Weg

D- 85416 Langenbach / Niederhummel

The old year comes to an end, a new partnership begins.

Langenbach-Niederhummel, 21st December 2011: The old year is nearly over and so many things have happened in 2011 but it still feels there is more to come. And in fact we are happy to present you our new distribution partner for the United Kingdom and Ireland: Allison Engineering.

For more than 30 years Allison Engineering has been providing highest quality and security standards in the areas of control, instrumentation, gas detection and gas analysis. The company will take over the distribution of the Awite devices AwiECO and AwiFLEX as well as the corresponding services in those regions.

Despite all these exciting developments we have not forgotten that it is nearly Christmas time. Therefore we would like to take this opportunity to wish you a very happy Christmas among your family and friends and all the best for 2012.

Thank you very much for the constructive cooperation over the last year. We hope that all the positive developments we have experienced will continue in the New Year!
